

KINGCORE[®]

BY CANUSA

Our Elite Standard of Quality & Performance

Developed alongside Canusa's Quality Control Team, KINGCORE® delivers a new standard of quality and performance. With a calibrated core, minimal core voids & overlaps and thickness tolerances that exceed HPVA/ANSI standards, KINGCORE® is an ideal choice for discerning cabinet manufacturers and laminators.

Unfinished Kingcore

Prefinished Kingcore

SPECIFICATIONS

FACE AND BACK VENEERS	<ul style="list-style-type: none"> • WHOLE PIECE WHITE BIRCH • GRADED TO HPVA STANDARDS

DIMENSION	• 48.5" x 96.5"		

Features

Benefits

Tight thickness tolerance at +/- 0.3mm
Ease of use on CNC machines

Exterior Glue
High moisture resistance

Unfinished and Prefinished
Matching panels for multiple applications

Calibrated two-step panel construction
Stable core to eliminate warping

Inspected by Canusa Quality Control Team
Consistent quality
