

# Superlite MDF

Light, Strong and Smooth.

GoldenEdge Superlite MDF is one third lighter than traditional MDF but maintains excellent strength, stability and surface smoothness. Our Superlite is a consistent light colour ideal for laminating white or pale colour papers and foils. With a lighter weight it is easy to maneuver making it perfect for DIY applications.

## Features

### Benefits

#### Radiata Pine fibre

Ease of use on CNC machines

#### Over 30% lighter weight than standard MDF

Easy to handle and transport

#### 100% FSC

Qualifies for LEED Points

#### High Quality Surface

Painting and HPL lamination made easy
