Premcore[®] Sets the Standard in Quality Import

This premium plywood is crafted with the highest-grade core materials sourced from our exclusive international mills. Our experienced graders oversee the quality panel production that the PREMCORE® brand has become famous for. With over eight years of careful and continuous refinement, PREMCORE® has proven, time and again, that its quality is tough to beat for performance and value. Once our customers give PREMCORE® a try, it's hard to go back to what they used before.

19mm Unfinished Birch

19mm Prefinished Birch

Features

Benefits

Tight thickness tolerance at +/- 0.3mm
Ease of use on CNC machines

Calibrated two-step panel construction
Stable core to eliminate warping

Minimal core voids and overlaps
Consistent look along the edges

Unfinished and Prefinished
Matching panels for multiple applications

Inspected by Canusa Quality Control Team
Consistent quality
